RECENT HISTORY FOR THIS PROPERTY:

On December 11, 2002, the Campbell County Board of Adjustments approved case number BA-10-02, a conditional use permit for the Main Street Baptist Church to be constructed within the A-1 Zone with the following seven conditions; all of these conditions have been met:

1. That the applicant apply for and receive approval from the Campbell County Board of Adjustment for a variance from the required front yard setback, prior to the issuance of any zoning permit.
2. That screening, for the proposed lots, is placed around the entire perimeter along the property boundary lines. Trees will be spaced 15 feet apart with bushes intermittently planted. The types of trees and bushes proposed on the site plan shall be that which is utilized for planting, along the

4. That the parking lot meets all design requirements of Section 11.0 and Section 9.17 of the Campbell County Zoning Ordinance.
5. That access to Parkside Drive be clarified provided at the time of applications for the permit.
6. That all development controls be met, as indicated in Section 10.5 of the Campbell County Zoning Ordinance.
7. That the applicant obtains all necessary building and zoning permits.

On July 18, 2007, the Campbell County Board of Adjustments approved case number BA-07-07, a conditional use permit for the Main Street Baptist Church to operate a day care within the existing church facility with no conditions.

On October 13, 2009, the Campbell County Board of Adjustments approved case number BA-07-09, a conditional use permit for the Main Street Baptist Church to allow for a dwelling unit for religious purposes on the church premises with three conditions all these have conditions have been met.

CONSIDERATIONS:

1. The Recommended Future Land Use Map of the 2008 Campbell County Comprehensive Plan identifies the site and general vicinity for Urban Mixed Use & Higher Density Single Family Residential. This is defined as the development of land, building or structures that includes a variety of complementary and integrated uses such as, but not limited to, higher density single family and multi-family residential, office, manufacturing, retail, public, or entertainment uses in a compact, dense form.
2. The existing land use, for 11093 Alexandria Pike, is a church set within a park like setting. The existing land use for the surrounding areas is mixed between single family residential and vacant land.
3. The property is currently zoned Agricultural One (A-1). Churches and other accessory buildings for the purpose of recognized religious worship are permitted under the conditional use of the A-1 Zone.
4. A review of the public records indicates there are three previous conditional uses granted by the Board of Adjustment for this site.
5. Per Campbell County Zoning Ordinance Section 9.14, A. DETERMINATION: Subject to the requirements of Section 18.7, the Board of Adjustments may authorize a conditional use to be located within any zone in which such conditional use is permitted if the evidence presented by the applicant is such as to establish beyond any reasonable doubt:
 - a. That the proposed use at the particular location is necessary or desirable to provide a service or facility which will contribute to the general well being of the neighborhood or the community.

The Main Street Baptist Church has grown from a church into a community campus that includes the church, a school, a gymnasium facility, a Care Ministry, and a baseball/soccer facility. This campus is enjoyed not only by the church members but also the community. This growth and activity has created a need for more equipment and tools to

maintain the grounds and thus a facility to store this extra equipment is needed. A well maintained campus will make all of the Main Street facilities more desirable to the neighborhood and the community.

- b. That such use will not be detrimental to the health, safety, or general welfare of persons residing or working in the vicinity, or injurious to property or improvements in the vicinity.

The construction of the storage building will have no adverse effect on the surrounding area. The building will enable Main Street Baptist Church to store equipment, presently kept outside, inside the new building. This will make for a safer environment for everyone on the campus.

- c. That such use will comply with any regulations and conditions in this Ordinance for such use.

It is the intent of Main Street Baptist Church to abide by the regulations and ordinances pertaining to the construction of this storage building.

STAFF RECOMMENDATION:

Staff recommends approval of the requested Conditional Use permit subject to the following conditions:

1. That the applicant receives a building permit from the Campbell County building department.
2. That no additional signage be displayed for this storage building.
